FRUIT BORNE ALL ALONG THE BRANCHES AS
ILLUSTRATED AT RIGHT

This new "Miracle" Bush Cherry, illustrated above as it blossoms in the spring time, is the result of 40 years of cross-breeding. The fruit is large and delicious to eat from the bush and makes a wonderful jam of superb flavor and richest color imaginable. The bush branches from the ground up and is literally covered with its delicious fruit all along the full length of the twigs and branches, just as it is covered with attractive snow-white blossoms in the spring. The blossoms are followed by silvery green foliage, turning to rich red and gold in the fall, so that the bush is always highly ornamental. They are superb as a hedge or foundation planting, or as specimen shrubs placed anywhere in the garden. The fruit, of course, may all be picked without the use of a ladder. They are hardy from coast to coast and from the Gulf of Mexico right into Canada. The strong plants I will send are bearing size and will produce many times their cost in delicious fruit each season.

\$1.50 Each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00

Everblooming Climbing Talisman Rose

(See illustration at left)

No Rose has ever approached the beauty and the popularity of the world famous Talisman Rose as a cut flower. Florists for many years have sold more of them than of all Roses combined. Now we have this delightful Rose in everblooming climbing form, as illustrated at the left. The flowers are even larger and more handsome than the illustration. The large double flowers are identical in form and color with the bush Talisman, but even larger and more handsome, and produced in much greater profusion. In the past few years we have sold many thousands of these Climbing Talisman Roses. To those who have not seen it in bloom, the illustration at the left will no doubt prove to be a revelation to them. It is perfectly hardy where other Roses are hardy and is a robust grower and profuse bloomer, continuing in flower until killed by frost. **Extra strong, No. 1, field-grown, 2-year-old plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Everblooming Climbing Red Radiance Rose

Perfect cut flowers, one to a strong stem, as fine as hothouse grown Roses. This Rose is a beauty, either as a cut flower or for its stunning effect in the garden. The flowers are extra large, very double, perfectly formed and extremely fragrant. Hardy, vigorous, free blooming; it has everything that can be expected from a perfect Rose. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Everblooming Climbing Pink Radiance Rose

Exactly like the above as to habits, form, beauty, ruggedness, freedom of flowering and all other good qualities, the only difference being the color, which is a luscious pink. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Everblooming Climbing President Hoover Rose

President Hoover Rose has been one of the sensations of the century and has been awarded 2 Gold Medals and 1 Silver Medal. Probably not one Rose in a thousand is so honored. It is a Rose of huge size, perfect form and delightful coloring. Somewhat similar to the Climbing Talisman Rose but the colors are more blended. Now offered in Everblooming Climbing form at **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Mary Lovett Climbing Rose

A perfectly gorgeous pure snow-white climber of large size, fully double and as fine as a hybrid Tea Rose, but produced in much greater profusion. Sometimes flowers again in the fall. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

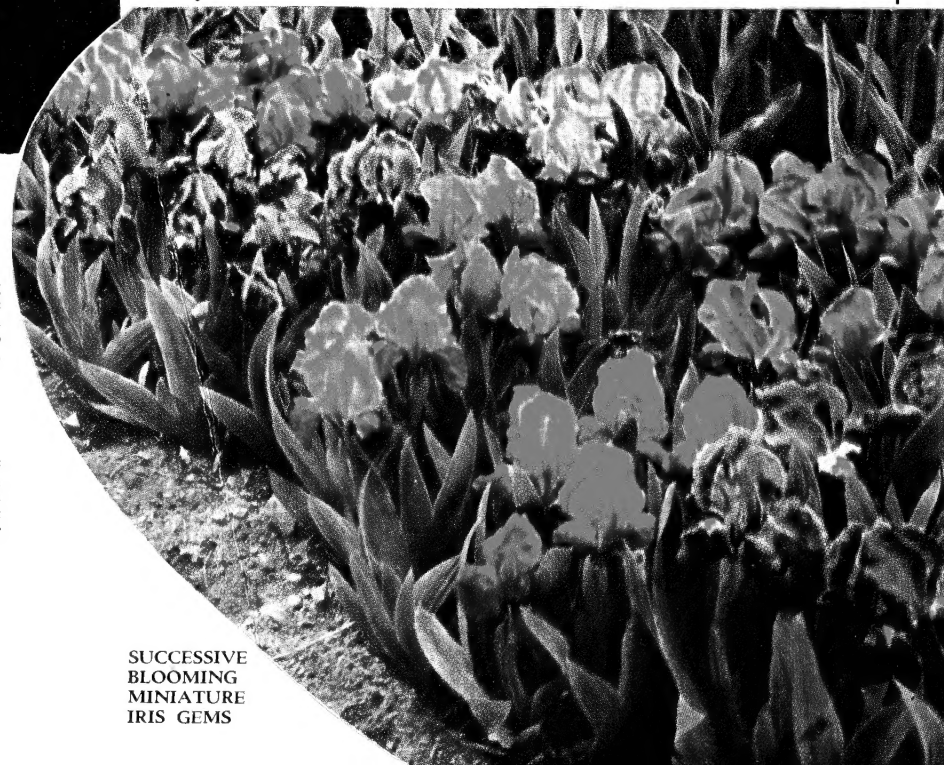

One Each of the Above 5 Everblooming Climbing Roses \$3.75

Successive Blooming Miniature Iris Gems

A succession of low growing Miniature Beauties for planting on the edge of a bed, or for bordering a walk, or for planting in the rock garden, or in front of taller varieties. They are gems of beauty wherever you plant them. They all blossom very early in the spring ahead of other Iris, in April and early May on Long Island and a month earlier in the South. Some of them flower again in the fall and others occasionally throughout the summer. The flowers are quite large and showy and freely produced on stalks 6 to 12 inches tall. This collection contains a fine color range. See illustration of a few colors below.
